Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Monday 14 Jun 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Quickly becoming sunny, dry and warm.

Today:
Rather cloudy at first for most, with the odd spot of drizzle possible especially over western hills. However soon brightening up to become dry and warm with sunny spells. Feeling fresher than yesterday, with a westerly breeze. Maximum temperature 21 deg C (70 deg F).

Tonight:
Dry overnight, with any patchy cloud soon clearing during the evening. The clear skies will allow temperatures to fall away, giving a chilly end to the night. Light winds. Minimum temperature 3 deg C (37 deg F).

Tuesday:
Dry and warm on Tuesday, with lengthy sunny spells. Perhaps clouding over during the evening. Winds picking up later, becoming strong during the evening. Maximum temperature 22 deg C (72 deg F).

Outlook for Wednesday to Friday:
Sunny start in the south, but soon becoming cloudy with outbreaks of light rain. Largely cloudy Thursday with showers, perhaps heavy. Becoming dry Friday with some sunny spells.
